ISSUE 2
JULY 2024

- ## INSIDE THIS ISSUE
- **Automotive (Performance Automotive)**
 - **Electrical (IEC)**
 - **Information Technology (TechCorps)**
 - **Logistics (LTWLA & Dawson Staffing)**
 - **STNA / Phlebotomy (VIP Medical Academy)**

Automotive
Youth learned Tool ID which is being able to identify tools by their shape and size. They spent time learning the different classes of leaks, various oil stages, and the process of lifting a car.

Electrical
Students were given their tools and hard hats and learned about the different tools and how/when to use them. On Tuesday, the students began hands-on activities where they used power tools and began wiring connectors.

Information Technology
Youth were involved in several activities that increased their knowledge of computers, employment, life events, purchasing cars, and what careers could follow behind receiving this certification.

Logistics
Students delved into the logistics field, learning about the dispatch process and how to secure loads. They were provided detailed explanations and practical examples.

STNA / Phlebotomy
The STNA program provided an overview of catheter care, emptying urinary drainage bags and providing male peri care. The Phlebotomy course covered additional blood draws and urine analysis

AUTOMOTIVE

JULY 1 - 5, 2024

WEEK IN REVIEW

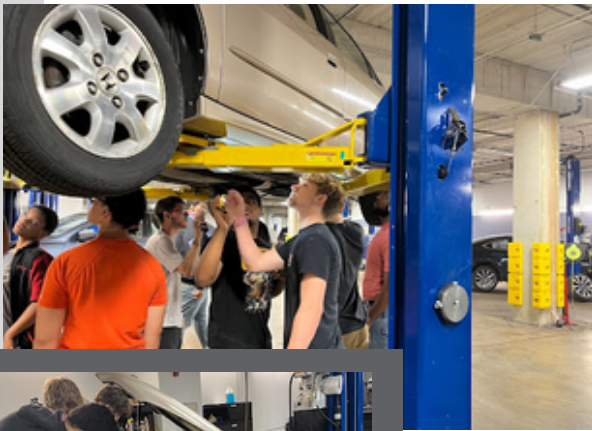

This week in automotive, youth had 2 days of orientation the Performance Automotive version. They learned Tool ID which is being able to identify tools by their shape and size. They spent time learning the different classes of leaks, various oil stages, and the process of lifting a car. They learned the process of using a rotary lift, then had the chance to apply what they learned and used the lift to raise a car. They finished the week off learning the details of tires and how to work with batteries.

LEADER OF THE WEEK

Elishja Davis

Elishja will be a Senior in High School this upcoming fall. He would like to ultimately work in a detailing department for a company like Brabus. He is very knowledgeable on car parts and detailing information. He is very excited to be in the Automotive program to gain experience and also do hands on work with the cars. He is always ready to help and volunteers during class whenever asked.

During the Under The Hood activity youth spent time inspecting a car in the shop. There were various parts of the car engine highlighted with a number. Students had to ID what car part it was. This activity helped gauge if they knew some of the basic car parts and the ones they had gone over during their lectures.

WEEK AHEAD

Next week the youth will be working in the shop. They will be working on important subjects such as inspections and brakes. They will be learning what an inspection looks like, how to do one for a customer, and also learning the ins and outs of what to look for when it comes to changing breaks.

- 7/8-7/12-focus on inspections and breaks
- If students would like to study more, it was suggested to go on youtube and search the topic and find mechanics going through walkthroughs

REMINDERS

- Wear boots that were provided for you, jeans/khakis and t-shirt
- No phones while working, may keep in pocket or bag, no airpods in
- Sign next to your name everyday, In AND Out everyday on sheet in binder in classroom.
- Check emails throughout week for Ahola or important information
- Use Morse Rd entrance, 2361 Morse Rd,
- ▲ If you have not turned in your signed release form to Dave or Alvin please do so ▲

ELECTRICAL

JULY 1 - 5, 2024

WEEK IN REVIEW

This week the students started at Independent Electrical Contractors. On Monday, the students were given their tools and hard hats and learned about the different tools and how/when to use them. On Tuesday, the students began hands-on activities where they used power tools and began wiring connectors. The students ended the week with CPR training and received a certification for completion.

LEADER OF THE WEEK

Marcel Fouch

Marcel goes to Harvest Preparatory School and will be a senior. He was on time, dressed professionally, constantly engaged during instruction and activities and asked great questions throughout the week. He aspires to be an electrical engineer.

A veteran member of IEC came in and facilitated CPR training with our students. The students had the opportunity to work hands on and learn CPR protocol and how to give CPR to life like dummies. After the successful completion of the training, each student earned a CPR certification card that will be valid for the next two years.

WEEK AHEAD

Next week, the students will return to regular instruction. They will continue building their knowledge and experience through hands on learning and mini projects such as wiring doorbells and fire alarms, wiring two and four way switches, etc.

- 7/8-7/12: 8am - 1pm

REMINDERS

- Closed toe shoes (wear your boots)
- No phones
- Business casual attire
- Pack lunch or use a delivery service. Lunch will not be provided.

INFORMATION TECHNOLOGY

JULY 1 - 5, 2024

WEEK IN REVIEW

This week the youth were involved in several activities that increased their knowledge with computers, employment, life events, purchasing cars, and what careers could follow behind receiving this certification. The instructor gave the youths several life experiences with being in the army and its advantages and disadvantages.

LEADER OF THE WEEK

Tyler Tripp

Tyler is definitely a team player. He always helps others out when they are struggling. Tyler asks questions when not sure of the answer. Tyler has great work ethic, he arrives at least 10 mins. early each day.

Youth were able to work on worksheets that displayed a computer and what the importance of each object. They are learning all the careers.

WEEK AHEAD

Next week our youths are very excited and engaged getting prepared to receive all the parts for building their own personal computers. Youth are prepared with all the rules and accomplishments of knowing where all the elements go. Youths are also working on their future jobs. Next week they will do mock interviews after noticing their interest in that. Youth will be opening their tech corp. accounts

REMINDERS

- Keep the noise low there are others using the space
- No phones
- No profanity
- Pack lunches will be delivered for youths

LOGISTICS

JULY 1 - 5, 2024

WEEK IN REVIEW

The youth were introduced to their instructor, Miss Quiess. They participated in various icebreakers, which helped them get to know each other and build a sense of camaraderie. Following the icebreakers, they delved into the logistics field, learning about the dispatch process and how to secure loads. Miss Quiess provided detailed explanations and practical examples, giving the participants a comprehensive understanding of logistics operations and the critical role of effective communication and coordination in this industry.

LEADER OF THE WEEK

Brandon Phan

Brandon, a graduate of Hilliard Davidson High School, will be attending The Ohio State University this year. He has been actively involved in various activities and has shown a keen interest in logistics.

Logistics operations encompass the entire process of planning, implementing, and controlling the efficient flow of goods, services, and information from the point of origin to the point of consumption. The youth engaged in hands-on activities and simulations to reinforce their learning and develop practical skills.

WEEK AHEAD

- The youth will walk to COSI with their instructor
- Learn how to planned routes and schedules to optimize delivery times and costs.
- Handling the logistics of shipping goods, including documentation, compliance, and tracking.

REMINDERS

- Be on time
- No phones
- Dress to impress
- Always have a good attitude

STNA / PHLEBOTOMY

JULY 1 - 5, 2024

WEEK IN REVIEW

The STNA class has covered the following topics:

- Catheter care
- emptying urinary drainage bags
- providing male peri care

and they have completed their last quiz and vocabulary test.

They will be taking their final exams next week.

LEADER OF THE WEEK

Kylie Egelhoff

Kylie has distinguished herself as an exceptional scholar in her STNA class this week. She excelled in all her quizzes and has been an invulnerable aid to her peers. Currently, Kylie volunteers at Riverside Hospital and aspires to join the Navy as a nurse after completing her college education.

Jasleyana Peake

Jasleyana has been recognized by the instructor for exceptional contributions. She has been extraordinarily helpful to her peers and has excelled in mastering the material. Upon completing this class, Jayleyana intends to pursue a career as a phlebotomist in a hospital setting.

WEEK IN REVIEW

The Phlebotomy class concluded on Tuesday. The curriculum covered additional blood draws and urine analysis. To complete the course, students were required to perform 30 venipunctures.

REMINDERS

- Closed toe shoes
- No phones
- No artificial nails
- Pack lunch or use a delivery service. Lunch will not be provided.
